# MINIATURE CIRCUIT BREAKER (MCB)

## Overheat Sensing Technology

Orient MCBs with SDB Technology detect heat from external ambient or loose wire connection and trip, thereby safeguarding the circuit connected with it.

## Ease of Installation

Two-Position DIN rail clip for easy installations & dismantling

- Easy and quick method of MCB mounting and replacement on the DIN rail
- Great convenience for the installation/removal of a product
- Safe and time-saving

## Trip-Free Mechanism - Positive Contact Indication

Trip-free mechanism ensures that MCB trips even if it's held in ON position.

Red Colour Indication - MCB ON

Green Colour Indication - MCB OFF

EuroTech has a positive indication which offers more safety to a user. Separate colour flag indication shows the status of the MCB, that is whether it is in operation or not.

## Engraved ON/OFF Marking

Clear visual indication of ON/OFF is engraved on knob for better safety.

## Large Cable Terminals

- Large cable terminals of 35 sq mm suitable for copper or aluminium cables up to 35 sq mm cross-section area on both incoming & outgoing sides
- Large cable terminals avoid a loose connection to a great extent

## Bi-connection

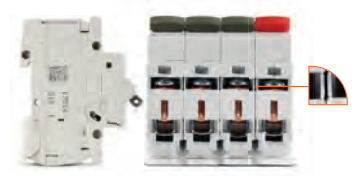

EuroTech MCB has user-friendly dual-function terminals for connection through a busbar and cable on both incoming & outgoing sides.

# MINIATURE CIRCUIT BREAKER (MCB)

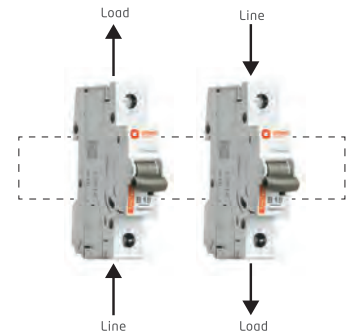

## Cooler Operation

There is cooler running operation inside the distribution board through better air circulation design on the MCB's outer body. When two (MCBs) are placed adjacent to each other, air channels between two MCBs form a tunnel, resulting in very effective air circulation around individual poles.

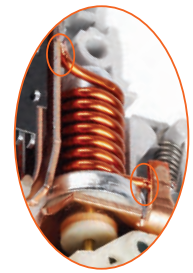

## Line & Load Interchangeability

Orient Eurotech MCBs offer line & load interchangeability. One can connect load or line on either side. In many other MCBs, it's fixed.

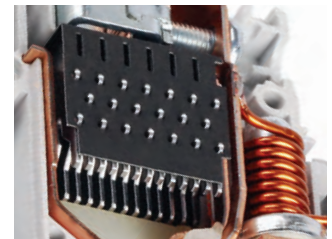

## Less Welding Joints

Orient EuroTech MCBs have less welding joints in the current-carrying path as compared to more number of welding joints in conventional MCBs. This arrangement significantly reduces the power consumption of the MCB.

## Better Arc Quenching Arrangement

- The assembly comprises of CRCA sheet arc plates with zinc coating on it. The arc is moved into the arc chute which gets split into the arc plates & gets quenched.
- Arc plates covered fully with vulcanized fibre paper ensure faster quenching and minimal spreading of carbon fumes inside the MCB, thus eliminating the threat of carbonisation inside the MCB circuit.

## Precise Overload Tripping

Orient MCB with SDB technology comes in a single enclosed unit which does not require manual trip setting, unlike conventional MCBs. This arrangement ensures 100% precise tripping.

Also, a snap disc bi-metal is not in the electrical circuit during overload & short circuit hence a longer service life with better, precise & further operations, whereas in conventional MCBs, the bi-metallic strip always remains active and is a part of the current-carrying circuit for the above faults.

# DC MCB

## Smart Features & Benefits:

- Dual tripping system - Overload through bi-metal and short circuit through electromagnetic coil
- Incorporates a built-in permanent magnet, which directs the arc into the arc quenching chamber
- Free from nuisance tripping caused by vibrations
- Clear indication of polarity by the + and - sign stickers on the poles of MCB
- Time constant = 5ms
- Housing of DC MCB is made up of the fire-retardant, anti-tracking and non-hygroscopic injection moulded thermoplastic
- Contacts are made up of silver inlaid copper, which ensure low resistance and a longer life of circuit breaker
- Properly spaced nickel plated de-ionizing plates for quick arc extinction are a part of well-designed arc chute

Short Circuit Protection

Superior Build Quality

RoHS Certification

German Technology

# ISOLATOR

## Smart Features & Benefits:

- Forced opening and suitable for use as main switch
- High short circuit withstanding capacity
- Optimal protection against unintentional touching of live parts
- Dual-function terminals
- Quick mounting clip, lockable in open position
- The switch-isolators are equipped with dual-function terminals which enable simultaneous connection of conductors and bus bar
- Cross/Slotted-head screws size 2, system pozidriv, enable easy, reliable and time-saving wiring
- Facility for sealing or padlocking in closed or isolated position
- Internal connection of switching mechanisms ensures simultaneous switching even without toggle linkage
- Same form & design as MCB range

# RESIDUAL CURRENT CIRCUIT BREAKER (RCCB)

## Smart Features & Benefits:

- Provides protection against earth fault/leakage current and also fulfils the functional isolation
- Automatically measures and disconnects the circuit when earth fault/leakage current occurs and exceeds the rated sensitivity
- High short circuit current withstand capacity - 10kA
- Dual termination possible for cable and comb type busbar connection
- Equipped with finger protection disconnection terminals (IP20)
- Fire-resistant plastic parts to withstand abnormal heating and strong impact
- Independent of line voltage. Also free from external voltage fluctuation
- Incorporates a filtering device for prevention of nuisance tripping due to transient voltage

## MCB CHANGEOVER

### Smart Features & Benefits:

- Compact design
- Double break contacts
- Silver alloy contact tips
- Shrouded terminals
- Front operations with three positions I-O-II
- Centre position-OFF
- Easy snap on DIN rail mounting
- Can be mounted with other products viz MCB, RCCBs, Isolator in distribution board
- Specification IS/ IEC 60947-3

# CANVAS O DISTRIBUTION BOARDS

## Smart Features & Benefits:

### 3-Piece Concept for Easy maintenance:

- Instead of removing Door Assembly (Inner & Outer), only the intermediate plate needs to be removed for the purpose of maintenance, without spoiling the alignment & associated plastering/paint work.

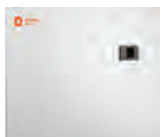

### Ease of Installation - Removable Pan Assembly:

- This concept facilitates detaching of the chassis from the DB, and the required wiring for the circuit protection device can be done at a comfortable location. Then this assembly can be refitted into the base.

### Door & Shield Independent:

- During maintenance, one can just remove the shield without removing the entire DB.

### Enhanced Aesthetics:

- The aesthetically designed front fascia of the DB adds an alluring dimension to the living space.
- A distribution board that you no longer need to hide.

### Made of High-Quality Virgin Sheets:

- Anti-rust conditioning through 9-tank pre-treatment process.
- CRCA Grade D Steel.

### Safety Standards:

- Canvas O has been designed in accordance with IEC 61439-3, thus ensuring maximum reliability and excellent safety.

# CANVAS O DISTRIBUTION BOARDS

## Smart Features & Benefits:

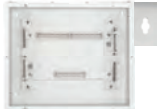

### Detachable Gland Plate with Different Size of Knockouts:

- Removable gland plates at the top and bottom of the DB facilitate easy entry and exit of the cable. Thus, one can remove the entire plate from incoming & outgoing terminals.

### Ample Space for Wiring:

- This ensures proper distribution of neutral and earth wire.

### Suitable for Flush Mounting and Surface Mounting:

- Mounting key hole-every DB is provided with a key hole as an option for surface mounting.

- Pozidriv Screws for Easy Removal
- Identification Labels are Provided
- Front Plate Stud:

- Front plate stud is provided for the easy lifting of the front plate.

### Cement Protection Sheet:

- Remove the cement protection sheet at the time of mounting top cover with base.

### Embossed Earthing Identification:

- Clear earthing markings for easy location. DBs are equipped with a stainless steel screw that prevents rusting of the surface.

- Provided with Neutral and Earth Bus Bar with Terminal Capacity 16 SQ MM
- Insulated Copper Bus Bar:

- All the DBs have this facility for quick, safe and easy installation.

- Bus Bar are suitable for 100A.

- Supplied with a RYBN wire set along with cable ties for better cable management.

# STELLA DB

## Smart Features & Benefits:

- **Bus bar rating:** 100A
- **Index of protection:** IP 30 for single door IP 42 for double door, Suitable for flush and surface mounting  
Neutral and Earth to bar terminal capacity 16mm<sup>2</sup>
- Removable top and bottom gland plates
- Circuit identification labels
- Suitable for surface as well as flush mounting
- Neutral & Earth bar terminal capacity 16mm<sup>2</sup>
- **Incomer:** For SPN DB's- Two-Pole MCBs/RCCB/Isolator  
For TPN DB's- Four-Pole MCBs/RCCB/Isolator
- **Outgoing:** SP MCBs
- **Standards:** IS 8623; IS 13032; IEC 61439-3

## MINI MCB WITH ENCLOSURE

### Smart Features & Benefits:

- Suitable for positive isolation
- Energy saving
- Long life due to copper-silver contact
- Enhanced safety using high quality fire-retardant material
- Heat-dissipating channel for superior cooling
- Trip-free mechanism
- Easy to operate & install
- Overload & short circuit protection
- LED indicator of supply
- IP 40 protection
- ISI marked MCB

Description	Part No.	MRP (₹)	STD Pkg.
Mini MCB with Enclosure DP16A	171DPC0160	452	10
Mini MCB with Enclosure DP32A	171DPC0320	452	10

## MCB PROTECTED POWER BOARD

### Smart Features & Benefits:

- Elegant white colour to suit all interiors
- MCB protection against overload & short circuit
- Suitable for protection of home appliances like ACs, LCDs, geyser, etc.
- Heavy-duty brass terminal for cooler running & longer life
- Well-designed plug top "hand gripping" for better fitment and removal
- Robust & strong - made up of corrosion/heat & impact resistant polycarbonate FR grade material
- UV stabilized for a longer life & protection against decolourisation

# EXPLORE OUR WIDE RANGE OF SWITCHES

**SALUS BLOOM**  
MODULAR SWITCHES

**SALUS**  
MODULAR SWITCHES

INTRODUCING ORIENT ELECTRIC SWITCHES WITH  
**3 LAYERS OF SAFETY**

# THE SUREST WAY TO BE SAFE

**A confluence of technology  
and trust**

Orient switches use 3AB technology that offer 3 layers of protection. It is technology that you can trust to keep your loved ones safe.

Extra RIB to contain the spark inside the switch cavity.

Added lid cover over the cavity to further shield the spark. Made of special material: fire-retardant and arch-quenching.

Shock-resistant switch cap to reinforce the safety.

# KEY FEATURES

## Sleek Plates

- Easy to Clean
- Minimizes Dust Accumulation

## Superior Build Quality

- Robust and Strong. Made of Polycarbonate Material
- Special Lock Design For Firm Locking of Grid Plates and Cover Frame

## Green and Eco-friendly

- Halogen-free
- UV Stabilized, Non-toxic fumes
- RoHS Compliant

## Ease of Installation

- Front Loading / Removal of Switch
- Wire Capacity of 6 Square mm

## Switch

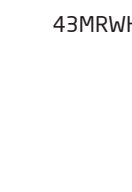

- Copper Moving Contact
- Additional Silver Inlay for 16 Amp and Above
- Zero Contact Bouncing
- Anti-weld Contacts
- Brass Terminals and Brass Screws For Efficient Electrical Contacts

## Socket

- Phosphorous Bronze Contact Clips
- Brass Terminals and Brass Screws For Efficient Electrical Contacts
- Easy Insertion of 2-Pin Plug

# Experience one - touch with the Orient Smart Plug

The IoT-enabled plug lets you operate all your appliances from anywhere.

16 Amp moulded 3-pin plug.

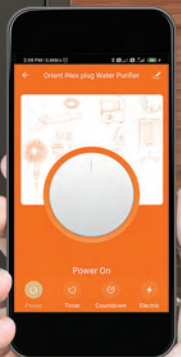

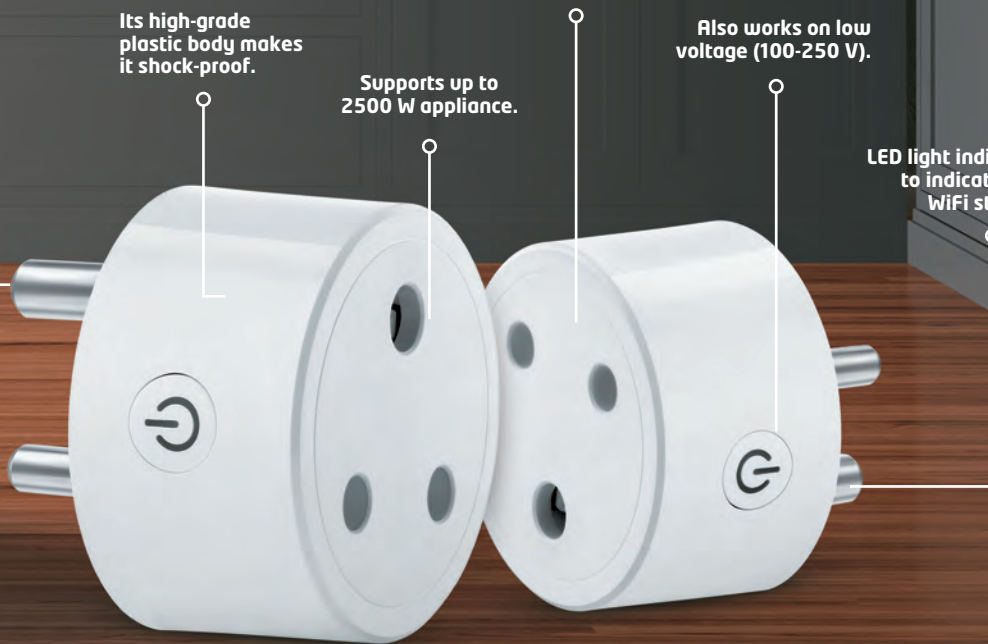

Its high-grade plastic body makes it shock-proof.

Supports up to 2500 W appliance.

Auto-shutter for the protection of plug from insects and dust.

Also works on low voltage (100-250 V).

LED light indicator to indicate the WiFi status.

IoT-Enabled\*

Energy Management

Smart Timer

Share Control

WiFi Control

Voice Control

# FEATURES THAT MAKE IT A SMART PLUG

Model Name	Smart Plug 16A
Suitable Pin Type	10A / 16 Amp Switch
Voltage Frequency for WiFi	100-250 V
Maximum Wattage	2500 W (Resistive only)
Input / Output Current	10A / 16 Amp
WiFi Standard	2.4 Ghz
Antenna	Built-in on-board
Standard	Complied with IEC, IS and EN Standards
Dimensions (LxWxH) in mm	For 10A - 55X55X49.9 For 16A - 64.5X64.5X64.9
Supported os	Android / ios
Warranty	1 Year

Turn on Geyser after 15 minutes

Schedule on/off timings of your appliance for ease of use

Monitor energy consumption of your device

Turn Off Lights at 6:00 AM

Single app with the IoT (WiFi) feature to control appliances from anywhere

Turn on TV at 7pm

Operate via voice commands with Google Home/Alexa

Turn On Cooler at 4:00 PM

## METAL GI BOXES

### Smart Features & Benefits:

- Made of pre-galvanized virgin sheets
- Fabrication folded design, no welding
- Metal sheet thickness - 0.9 mm
- Galvanization thickness of 120 GSM, 60 GSM on each side of metal sheet for a longer life
- Dedicated earthing terminals to avoid shock
- Screw mounting hole comes with protection tape for cement / dust protection

# Warranty Policy

## Switchgear & Wiring Accessories Business

### w.e.f. 1st December 2020

#### Eligible Product Groups

- MCBs, RCCBs & Isolators
- Modular Switches (Switches, Sockets & Electronic Products, Other Switch Group Products)
- Change over, Mini MCB/ with Enclosure, Offload Changeover, Distribution Boards (DB), Wiring Accessories & Building Accessories

#### Standard Warranty

Orient Electric Limited warrants its above mentioned products against defects arising due to raw material and workmanship subject to normal use and regular service for a period of 12 months from the date of invoice or 21 Months from the date of manufacturing, whichever is earlier.

#### Extended Warranty

Orient Electric Limited shall also provide extended warranty for following categories of products as per the below table:

S. No	Product Group	Pre-Condition for Extended Warranty	Extended Warranty Period
*1	MCBs, RCCBs & Isolator	These products to be used with Orient Electric make Distribution Board (DB) to enable them to qualify for extended warranty	84 Months from the date of manufacturing
2	Modular Switches (Switches Only) and all types of sockets	Not applicable on "Colour peel off" from switches	180 Months from the date of manufacturing

\*MCB's, RCCB's and Isolator extended warranty shall be subject to inspection by Orient Electric Limited along with photography proof.

Invoice is mandatory for claiming the warranty for both the above-mentioned product groups, however, for MCBs, RCCBs & Isolators, invoice of product with supporting invoice of distribution board (within 3 months duration) is mandatory. For all other products, no extended warranty is applicable.

#### Terms & Conditions

- This warranty does not cover
  - Defects caused due to improper storage, mishandling, misuse, alteration, faulty installation, faulty electrical systems, improper maintenance, product abuse or wrong application of product.
- Above warranty is subject to Force Majeure conditions i.e. acts of God, act of nature, lightning strike, floods, hurricane, tornadoes, etc. beyond the control of human being.
- Product design and development being a continuous process, Orient Electric Limited may service this warranty as per the latest product availability prevailing at that point of time.
- Orient Electric Limited reserves the right to modify/withdraw the above policy at their own discretion.
- Any return beyond the warranty period will be rejected. Failure to give notice of claims of breach of warranty within the warranty period shall be deemed an absolute and unconditional waiver of claims for such defects.
- This policy supersedes any previous communication/ understanding/ commitment w.r.t Warranty for Switchgear & Wiring Accessories business.
- Decision of Orient Electric shall be final in all cases.

**\*Above warranty policy is not applicable on Stella range (Existing and upcoming series)**

#### Process

- Defective product should be returned to the seller within the above-mentioned warranty period. Any return beyond the warranty period will be rejected.
- Return of product must be accompanied with authentic proof of purchase (invoice).
- Subject to all conditions met, seller will provide the suitable replacement subject to ready availability of particular stock.

## **Warranty Policy**

### **(Stella Modular Switch Range)**

### **Switchgear & Wiring Accessories Business**
